

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food and ask that the agency's current policies be changed:

☒ All GE Foods should be labeled so I am informed and have a choice.

☒ GE Foods should not be assumed to be "generally recognized as safe" and should have independently verified safety testing before going to market.

☒ There should be a moratorium on GE Foods until long-term studies show they are safe for human health and the environment.
